

HYDRATION SOLUTIONS ACROSS THE UK

Choice refreshments™

SIMPLE, COST-EFFECTIVE SERVICE
SINCE 1982

An Introduction to Choice Refreshments

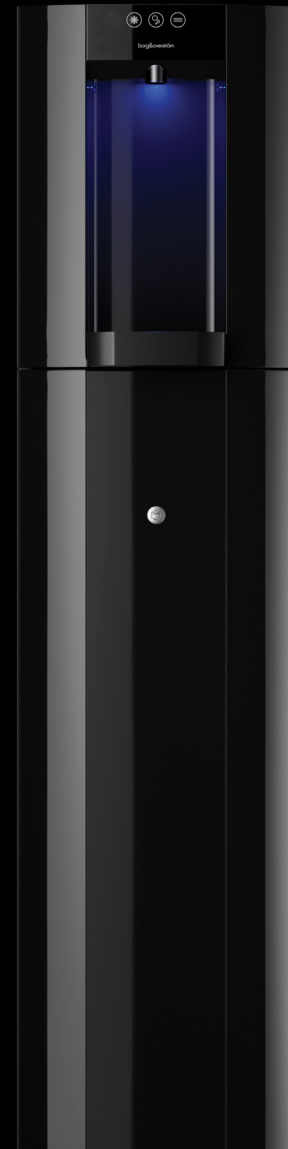

We are Choice Refreshments, a family-run business with over 40 years of experience in the supply of hydration systems and boilers.

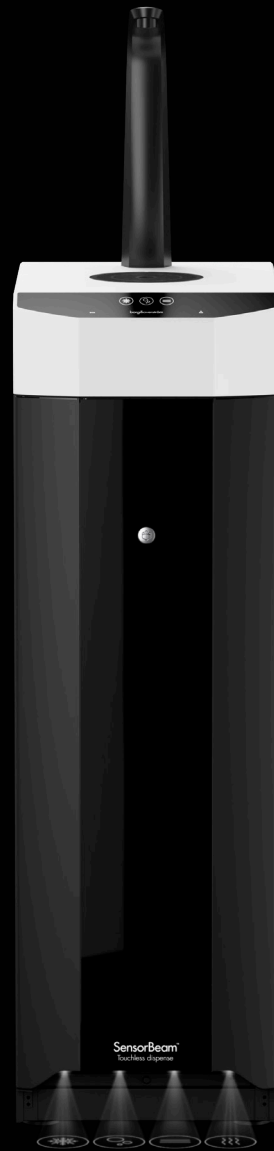

Our range of products and services include:

- Coffee machines
- Water dispensers
- ZIP taps & water boilers
- ZIP boiler servicing & maintenance

Based in Manchester, our team boasts extensive experience engaging with communal environments of all kinds, including offices, schools, hospitals, hotels and other work-related spaces. Chosen and trusted by businesses throughout the UK, we're passionate about offering our customers products that meet their needs.

This means providing solutions that are safe, durable and cost-effective whilst delivering a customer service experience that satisfies every time.

Working with countless organisations across the UK, in a range of industries, we provide our clients with the products that fit the needs of their business. From purchasing to rental and contractual options, we offer solutions to suit any budget or requirement.

Water Dispensers

Providing safe drinking water is both a moral and legal obligation. Choice Refreshments helps customers stay compliant and hydrated with a range of water cooler systems. When it comes to water dispensers, we're the experts! Prices include VAT and installation. Finance packages available.

- Includes the Simple-fit Ventilation Base

Rent from **£30.24** per week
Purchase price from **£2,954**

Kalix Water Cooler

Elevate your hydration experience with the Kalix Oasis Pressure Vessel Direct Chill System Water Cooler, embodying cutting-edge technology for optimal efficiency and innovation.

With foot pedals for contactless operation

Cooling System:

Kalix OASIS Pressure Vessel Direct Chill (PVDC) System

The PVDC® system by Kalix is the most effective cooling system on the market, featuring a cooling tank made from 304 Stainless Steel. It is kept under pressure for rapid water chilling. The Cold Water Refrigeration Unit includes a convection-cooled condenser, internally spring-mounted, hermetically sealed compressor, and a capillary tube for precise refrigerant control. The Cold Water Thermostat, with an adjustable setting and an "Off" position, is easily accessible in the filter compartment. The OASIS direct chill pressure vessel is a two-piece structure, crafted from type 304 series stainless steel for easy cleaning and sanitising.

Hot Water System:

A Two-Piece Hot Tank for Efficient Scale Cleaning

The Hot Water System employs a two-piece hot tank, manufactured from non-corrosive and inert 304 Stainless Steel. It aids in scale cleaning, and its 500-watt element can be replaced on-site, reducing service costs. The Hot Water Thermostat features adjustable settings with a safety limiter.

Carbonated Water Circuit:

Efficient Carbonation Process

The pre-carbonated cooled water is sourced from the PVDC system, pressurised, and mixed with CO2 gas within a carbonator tank inside the OASIS PVDC system. The tank is constructed from food-grade plastics and 304 Stainless Steel, offering a capacity of 350 litres with a standard 2kg cylinder.

Zip Taps & Water Boilers

ZIP HydroBoil & HydroBoil Plus

Wall-mounted instant boiling water systems that deliver energy efficiency with every cup. ZIP's advanced boiling water technology and electronic temperature control delivers boiling water heated to within 0.5°C of set temperature. Simple to use, it employs an external two-way classic tap with fingertip control. The tap also locks on to fill pots hands-free.

Ranging from 1.5 to 40 litre models to ensure suitability for all offices, restaurants, canteens and hospitals, there's a HydroBoil solution for every application. Enjoy no waiting time with this convenient, reliable and safe wall-mounted instant boiling water unit.

Features include:

- World-leading energy-efficient technology
- A wide range of capacities to suit all business requirements
- High quality products that are safe, highly functional and easy to use
- Sleek white modern casing
- Available with industry-leading service and support from over 90 full time engineers

Specifications:

Water Pressure: 0.7 - 5bar

Water Connection: 1/2" BSP

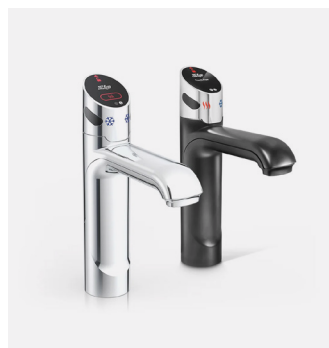

Power Rating: Varies depending on unit (e.g. 1.4kW @ 230V for 3L to 5.6KW @ 230V for 40L)

Rent from **£9.73** per week
Purchase price from **£1,089**

ZIP Hydro Tap

HydroTaps deliver a choice of instant filtered boiling, chilled or sparkling water for workplaces and communal spaces of all sizes. Dispensing only the purest tasting water, filtered to a market-leading 0.2 micron - 25 times more effective than a standard water filter jug.

To prioritise user safety, the HydroTap doesn't splash or spit when dispensing water, and features two boiling water safety modes and a cool to touch tap. These taps also features superior technology to conserve water while saving energy and time.

For use in commercial or residential environments and capable of the following, depending on the model:

- Number of people: 20 - 100
- Boiling cups per hour: 100 - 240
- Chilled cups per hour: 75 - 175
- Chilled litres per hour: 75 - 175

Specifications:

Water Pressure: Min 1.7 bar - Max 5 bar

Water Connection: 1/2" BSP

Water Supply Requirements: Cold

Power Rating: Varies based on model but around 2.1kW @ 230V

Power Supply: Varies based on model but around 1-2 x 13 amp

Dimensions: Varies based on model

Rent from **£27.76** per week
Purchase price from **£5,185**

We pride ourselves
on quality customer
service, but don't just
take our word for it.

See what our loyal clients have say...

"I'm looking forward to working
with you in the future, we've
been paying rental and not seen
any engineers for over 2 years."

Facilities Manager, Local Authority

"We're very happy to build
this partnership with Choice
Refreshments providing good
service and the ability to
maintain both our watercoolers
and ZIP equipment at our
different sites."

NHS Trust

"Go and introduce yourselves
to all the other schools in the
area – if you need a point of
reference – send them to me!
Your service is what every
school needs."
